

General Thermocouples

S-GTC

High Quality Temperature Sensors

Standard Versions

A selection of general thermocouples for various types of temperature measurement available for use on many applications including Autoclaves, Sterilisation and Injection Moulding.

Description

Although many of our sensors have more than one use, this range of sensors is our most diverse. They include bayonet thermocouples for the plastics industry, load probes for Pharmaceutical and Autoclave applications. And various thermocouples, such as washer, leaf and bolt probes for general purpose temperature measurement

Stock/Delivery

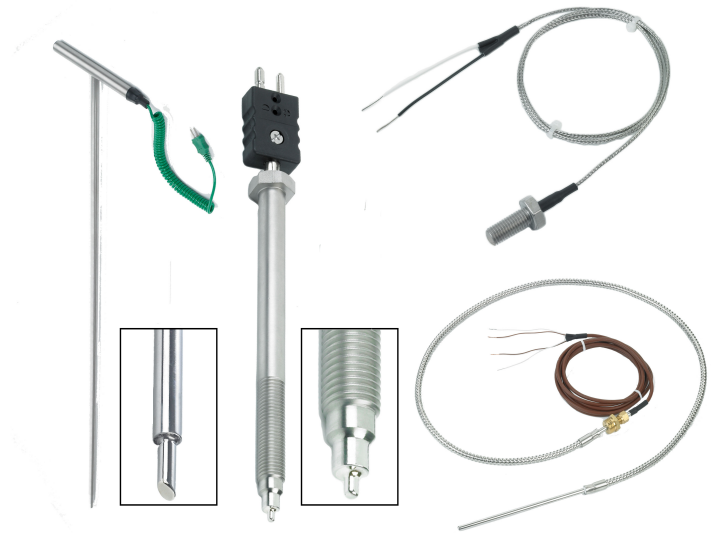

Standard lengths ex-stock
Typically made to order

Features/Benefits

UK/EU Manufactured
Available in types K, J & T

Application

Pharmaceutical
Plastics industry

Ordering Information, Configurations

- Individual specification sheets and drawings available
- Please email your enquiry or sketch to sales@itiuk.com
