

General Information

A range of Wire RTDs in various wire types and lengths, available in Pt100 or Pt1000 and are ideal in applications such as test and measurement, temperature mapping and OEM applications

Description

Available in wire types and lengths to suit your needs, we manufacture a range of bare wire resistance thermometers in Pt100 and Pt1000 for temperature measurement applications such as test and measurement, temperature mapping and OEM applications. If you are looking for a low cost general purpose sensor with fast response, wire RTD sensors are an ideal starting point. As with all of our range, these Sensors can also be manufactured to your exact requirements
