

# Fabricated Thermowells

FTW-3

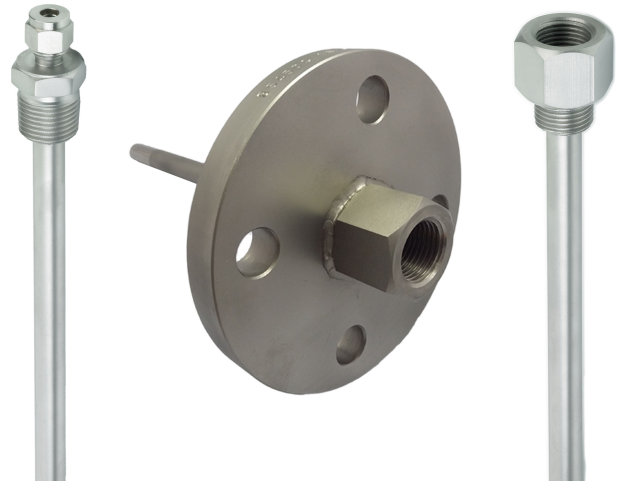

## 316 Stainless Steel Construction

### General Information

A range of fabricated thermowells to allow for the interchange of sensors in an application. They are available in standard sizes or can be bespoke manufactured for a specific application.

### Description

Designed for use with our thermocouples, resistance thermometers (Pt100's) dial thermometers and digital thermometers, this range of fabricated pockets is manufactured from 316 stainless steel and has an integral compression fitting and olive to suit the sensor diameter. Our fabricated thermowells have many options available and can be manufactured to suit your needs with BSP and NPT parallel and tapered threads, lengths made to order and diameters to suit any probe, such as 3mm, 8mm, 10mm or 12mm, 12.7mm etc.

### Stock/Delivery

3 – 7 days

### Features/Benefits

UK/EU Manufactured  
Allows for rapid interchange of sensors  
All 316 SS construction as standard  
Bespoke options available

### Applications

Oil & Gas  
Chemical  
Processing  
Vessels  
Machinery  
Pipes
